The Frederik IX Issues 1948 – 1960

On First Day Covers

This exhibit shows the First Day Covers of Denmark’s definitives bearing the portrait of King Frederik IX and issued between 1948 and 1960. It follows the Christian X series of the 1940s and precedes the Frederik IX series of 1961 to 1974. It includes the provisionals and semi-postals created by overprinting and surcharging these stamps, and excludes postal stationery. The collection was formed over twenty years and was shown at national and regional shows over a 10-year period. It evolved into an 8-frame exhibit, to which a few more items have been added for this publication. Below is the track record of awards.

Synopsis

Denmark: Frederik IX Issues on First Day Covers

This exhibit shows the stamps of the Frederik IX series issued 1948-1960 by Denmark, including the overprints, on First Day Covers. It does not include postal stationery with the same design nor the postal ferry overprints (which were not used on FDCs). The covers are shown in chronological order as the stamps issued. In some cases there is rate information. However, many FDCs are overfranked for the service for which they were intended.

Cachets

A major focus is on cachet varieties including color, imprint, and envelope size variations. Some printed address and corner card imprints are included as examples of commercial envelopes used in the servicing of the FDCs. The exhibitor has not found any literature sources that provide detailed information on the cachetmakers. Danish FDC servicers and cachetmakers did not normally enclose printed stuffers that reflected their business, as is often the case with United States First Day Covers. However, a few examples are shown.

Markings

Unofficial cancels were rarely obtained by servicers or collectors. A few examples are shown, especially in those cases where the stamp was issued without advance notice and without official FD postmarks. Auxiliary markings are shown in some cases to reflect more unusual or special handling of the mail. A number of foreign destinations are shown with indication of arrival or back stamping as appropriate. Almost all of the covers are addressed, reflecting their usage in the mails. The 15-øre gray issued August 23, 1950 was unannounced. A second day cover is shown. The exhibitor has not seen a FDC of this issue in over 20 years.

In a few cases, despite the period of issuance of these stamps, examples are shown of censored covers. Although the Second World War was long since over, Austrian authorities continued to examine the country’s incoming mail.

Denmark: The Frederik IX Issues 1948-1960 on First Day Covers

This exhibit shows chronologically the FDCs of the Frederik IX definitives of Denmark issued between 1948 and 1960, including the surcharged and overprinted stamps. Postal stationery with this design is excluded as well as the postal ferry issues. The stamps were designed by Viggo Bang, engraved by Svend Ewert, and printed on unwatermarked paper in sheets of 100 and perforated 12 1/4. More than two-thirds of the covers shown were sent to destinations outside Denmark. Some of the more unusual ones include Antigua, Argentina, Bermuda, Curacao, Czechoslovakia, Guatemala, Israel, Liberia, Malta, New Zealand, Pitcairn Island and South Africa.

Cachet varieties are shown as well as auxiliary markings illustrating special services provided during transit. Unofficial cancels were rarely pursued in Denmark and only a few examples are seen. In a few cases dealers enclosed an advertising insert or stuffer, but this was not normally the practice as it was in the United States during this time. Despite the fact that the period of use was well after the close of World War II, several examples of censored FDCs are shown as Austria still inspected incoming mail into the early 1950s.

Combination FDC with the first nine values of the Frederik IX issue bearing cancels from February 12, 1948 to May 25, 1950.

Key items have boxed text.

Matched pair to same addressee with Frimærke Nyt no. 32.
Since this registered letter could not be delivered during normal hours, it was held at the post office (marking on reverse) from 16 to 22 October. The S was a rubberstamp marking to indicate that the letter was being held at the Sønderbro post office for pick up. The blue manuscript 417 is possibly the line in the register book on which the addressee had to sign when claiming the letter.
Matched pair to same addressee with Falkenberg no. 27.
Fogh's cachet No. 24 (identified on back).
27 April 1955

The 25-ore value had no official FD cancel and was issued to meet the new local letter rate that went into effect 1 May 1955. Cancels at Copenhagen, Hellerup and Tølløse—the last on an unsealed cover to USA that more than paid the printed matter rate of 12-ore at the time.
Magasin no. 25 cachet, and Frimærke Nyt no. 32 with pink cover sheet, placed over the stamps, requesting careful cancellation for collector use.
Provisionals were made by overprinting remaining stock of older stamps. These three values were first released 20 October 1955 with no special FD cancel. Two different Copenhagen zones shown.
Provisionals on general purpose rubberstamped cachet, cancelled Tølløse, and Magasin no. 25.
The 95 øre Frederik IX issue was surcharged to provide aid to Hungarian refugees. Two different Copenhagen zones shown.
Hungarian refugee aid issue on Magasin no. 47 made for this issue, and a general purpose Frederick IX cachet similar to J. R. 1 but unsigned.

30 øre Frederik IX issue surcharged to aid the families of those who died when the M/S Hans Hedtoft was lost off the coast of Greenland three weeks before. Two different Copenhagen zones. [See next page for letter enclosed in the FDC sent to Clayton Hinckley.]
Jebn, Mr. Hinckley,

I do not know if you read about the dreadful sea accident by which the German m/s "Hans Hedtoft" was lost in the Atlantic Ocean, and by which 95 people found their death.

The Danish Prime Minister took the initiative of establishing a National Fund to help the children and families of the perished people, and the Postal authorities used this sad occasion to issue an overprint, the surcharge of which goes to the Fund.

On the cover you will find the stamps, cancelled on the day of issuance (there was no time to make a special F.D. Cancel). You'll also get a similar cover with Greenland stamps overprinted.

Most kind regards to you,
